## **GREENE COUNTY SENIOR CITIZEN AWARDS**

Richard Golden, Chairperson of the Advisory Council to the Greene County Department for the Aging (Human Services), announces that nominations are being accepted for the annual Greene County Senior Citizen Awards. The two awards, presented annually, are the Senior Citizen of the Year and Outstanding Contribution by a Senior Citizen. The purpose of the awards is to recognize the outstanding contributions and achievements of senior citizens who have volunteered their time and energy to help other people, their communities, and/or special projects. The dedication of these volunteers help to make Greene County a better place for all of us. The individuals chosen on the county level will then represent Greene County for recognition for New York State awards.

Any Greene County resident, age 60 or older, can be nominated for these awards. Achievements must be voluntary in nature; performed in Greene County and not part of paid employment. Past award winners may be nominated only if seven or more years have passed since last recognized.

If you know someone who deserves this recognition, contact the Greene County Department of Human Services at (518) 719-3555 for an official nomination form. Incomplete forms will not be considered as eligible. Any inquiries for further information may also be directed to the department. **Deadline for entries is January 31, 2020.**

### SENIOR ANGELS PROGRAM -SPREADING CHEER 365 DAYS A YEAR

SPONSORED BY GREENE COUNTY DEPARTMENT OF HUMAN SERVICES

To everyone that participated in the Greene County Department of Human Services Senior Angels Program's Bake Sale – whether you baked & donated something, purchased a homemade item or just made a donation - all helped to make the sale a tremendous success – breaking all past records. With your help, the program raised over \$700!

Additionally, we would like to thank all the volunteers who helped make our 4th Annual Senior Thanksgiving Dinner a success. The smiles on the faces of those seniors who attended the dinner were priceless. Our "Angels" definitely earned their wings that day. Due to the late Thanksgiving date this year, and our publication deadline, photos will appear in the January Round Table News.

# **GREENE COUNTY, NEW YORK**

When Disaster Strikes YOU Can Make a Difference

Help your community in times of need: •Natural Disasters •Disease Outbreaks

# **Major Incidents**

Immediately following disasters many volunteers come forward to help. It can be challenging for response organizations such as Fire, EMS, Emergency Management, and Local Government to utilize these volunteers in an organized fashion without a vetting and response framework. Here in Greene County, New York we have adopted a chapter of the national Medical Reserve Corps (MRC) to assist in volunteer organization.

The mission of the Greene NY Medical Reserve Corps (MRC) is to mobilize trained medical and non-medical volunteers to effectively support public health operations and foster community resiliency within Greene County through training, exercises and response to real-world events.

Volunteers are needed from medical and non-medical backgrounds. Volunteers with certain skills and experiences are especially needed: second language proficiency, security, data management, social media, reception, teaching, radio operation, packaging and distribution, or any medical licensure.

Advance registration of medical and non-medical volunteers will provide Greene County immediate access to volunteers who may be needed in the event of an emergency in Greene County - increasing the effectiveness of volunteers and overall emergency management efforts.

#### NYS DIVISION OF CONSUMER PROTECTION WARNS ABOUT USING PUBLIC USB CONNECTIONS AND WIFI

**Division of** 

**Consumer Protection** 

What's Meant for Your Convenience May Cause a Headache for your Privacy – Protect Yourself

The New York State Division of Consumer Protection is alerting consumers to public connections like USB and WIFI. Universal Service Bus (USB) is an industry standard for connection ports. Wi-Fi is the industry term for the wireless internet connections created from internet modems. These ports are meant for convenience while consumers are "out and about," but they can result in people skimming private data, malware installations, and other software deployments that are hard to detect and control.

New York State Secretary of State Rossana Rosado said, "millions of people every day step out into the world, and all its surrounding technology. As technology grows and continues to make our lives easier, it is also making it easier for hackers to get access to our information. It is important for consumers to know what they can do to protect themselves."

Today, USB connections are available on all our devices, allowing us to charge, connect and network our devices and our data. Rather than having to connect directly to a server, Wi-Fi allows us to wirelessly connect to the internet. Wi-Fi capabilities are also available on most devices today.

As technology connections are made easier through USB and Wi-Fi, the ability to connect to our devices is also easier for hackers. Sometimes when a hacker connects, they send a message and freeze people's data. However, more frequently nowadays, a hacker says nothing and pushes their malware onto a device to gain continued access to more and more of a person's private device data.

Remember:

- "If it's not yours, don't touch it" USB cords can transfer more than electricity. Data can be stored on some cords either directly when you leave the cord after charging or wirelessly while you are charging.
- Charge at home and/or carry an extra battery. It sounds simple, but the safer way to operate your phone is make sure it's charged before leaving the house. If you are out for a majority of the day and do not have access to a secure charging station, carry a battery extension. That way you can charge up on a power source you control.
- If you absolutely must charge your phone on a public charging station, power down your device first and use your own USB cord.

If you absolutely have to connect to check an email, shop, or schedule something important, take precautions:

- Know the hotspots you are connecting to hackers often create hotspots near common public Wi-Fi and make the names very similar to places like hotels and coffee shops.
- Do not "automatically" connect to available Wi-Fi hotspots. Update your phone settings to choose Wi-Fi connections each time you encounter them.
- Close all apps before you connect.
- Don't open private information (bank apps, credit card apps) when you are connected.
- Don't use any games that are connected to your social media—this allows for hacking to take "the long route" into your information. Hackers use social media to find additional information about you and your accounts.

The Consumer Assistance Helpline 1-800-697-1220 is available Monday to Friday from 8:30am to 4:30pm, excluding State holidays, and consumer complaints can be filed at any time at <u>www.dos.ny.gov/consumerprotection</u>. The Division can also be reached via Twitter at @NYSConsumer or Facebook at <u>www.facebook.com/nysconsumer</u>.

#### WAYS FOR CAREGIVERS TO LESSEN HOLIDAY STRESS (AARP)

The holidays can bring great joy, but as a family caregiver the season can spur additional pressure. According to a new AARP survey, 7 in 10 family caregivers say it is emotionally stressful to care for loved ones during the holiday season.

As caregivers, we often have unrealistic expectations for ourselves, striving to create the perfect holiday experience for our loved ones. That's why the vast majority of family caregivers plan to make at least one accommodation during the holidays. Some find someone else to cook or purchase their holiday meal while others scale back on decorating. A small number skip celebrating altogether.

If you are caring for loved ones, try to accept that things are going to be a bit different this year - for both you and your loved ones. But there are steps you can take, both big and small, that can help minimize your holiday stress and maximize your holiday joy.

- Line Up Someone to Listen: It really does help to express our fears, stress and frustration to another.
- Adjust Holiday Meals: Make a few favorite family recipes or go out to a restaurant for holiday meals when needing a distraction from grief and stress.
- Cut Back on Decorations: Display only the ones that are most meaningful.
- Get Respite: Even if you don't normally have help caring for your loved ones, this might be a good time to arrange for care for them. You'll have more time to unwind. Plan fun holiday activities for them so you feel better about leaving.
- Start a New Tradition: It's hard to let go of a tradition when loved ones are gone or can't participate, so start a new one. For example, when it became too difficult for your loved one to go to church on Christmas Eve, try singing carols together at home instead.
- Finally, **Stop, Breathe, Feel the Joy**: It's easy to get caught up in the holiday frenzy. Being mindful of joyful moments magnifies our precious time with loved ones. Savor them.

# HEALTHY HOLIDAY EATING STARTS WITH PROPER FOOD HANDLING

This time of year we plan our holiday meals and pull out all the stops! Meaning we cook from scratch like we did years ago. Lots of food, family and friends also offer opportunity for mishandling of food and contamination.

#### Here are a few easy tips to ensure a safe holiday season:

- Plan ahead
  - Be sure to have the proper equipment such as cutting boards and utensils available and on hand.
- Shopping
  - ◊ Do not buy fresh cut fruits and vegetables that are not refrigerated.
  - Avoid canned products that are dented, bulging or rusted.
  - Separate raw meat, fish, poultry and eggs from fruit and vegetables.
- Working in the kitchen
  - Be sure everyone follows the basic rules of Clean, Separate, Cook and chill.
  - Be sure everyone washes their hands before and after handling food.
  - ◊ Always use paper towels when many are preparing food for less risk of cross contamination.
  - Keep the refrigerator door closed as much as possible.

### • Leftovers

- ◊ Discard all perishable foods left in room temperature for 2 hours or longer.
- ◊ Cut whole hams and turkeys into smaller portions before freezing or refrigeration.
- Freeze or refrigerate leftovers in smaller/shallow containers.
- ◊ Consume leftovers in 3 to 4 days and reheat at an internal temperature of 165 degrees.

# Medicare Advantage Supplemental Benefits

## What is a supplemental benefit?

A supplemental benefit is an item or service covered by a Medicare Advantage Plan that is not covered by Original Medicare. These benefits do not need to be provided by Medicare providers or at Medicare-certified facilities. Instead, to receive these items or services, you need to follow your plan's rules. Some commonly offered supplemental benefits are dental care, vision care, hearing aides, and gym membership.

Supplemental benefits must, with some exceptions (see below), be primarily health -related. These benefits can either be:

- Optional, meaning that they are offered to everyone who is enrolled in a plan, and you can choose to purchase coverage if you want to, or
- Mandatory, meaning that they are covered for everyone enrolled in a Medicare Advantage Plan and you cannot decline the coverage (even if you do not need to use the service).

## Changes to supplemental benefits in 2020

Beginning in 2020, Medicare Advantage Plans can begin covering supplemental benefits that are not primarily health-related for beneficiaries who have chronic illnesses. These benefits should address social determinants of health. A social determinant of health is part of your life that can affect your health in some way, such as not having access to transportation. Plans can now offer benefits like meal delivery, transportation for non-medical needs, and home air cleaners. In order to be eligible for this benefits, you must be chronically ill. This means that you:

- Have at least one medically complex condition that is life-threatening or significantly limits your health or function
- · Have a high risk of hospitalization or other negative health outcomes, and
- · Require intensive care coordination.

Since Medicare Advantage Plans will be able to create sets of supplemental benefits for people with specific chronic illnesses, **not every member of a Medicare Advantage Plan will have access to the same set of benefits.** For example, a plan might cover services like home air cleaning and carpet shampooing for members with severe asthma. A member of that plan who has severe asthma will be able to get that service covered, while a member who does not have asthma, or whose asthma is mild, will not. Questions to ask about supplemental benefits Before signing up for a Medicare Advantage Plan that includes supplemental benefits or before receiving services that are covered by these benefits, ask these questions to better understand the available coverage:

- Is this definitely a supplemental benefit, or is this service covered under Original Medicare?
  - Sometimes, plan marketing materials can make it seem as though they are covering additional services, when these services are actually covered by Medicare. To find out if a service is already covered by Original Medicare, you can call 1-800-MEDICARE.
- If I am signing up for a Medicare Advantage Plan because it contains this benefit, did I also make sure that the plan's coverage will work for me?
  - For example, are all of my providers in the plan's network? Are all of my drugs on this plan's formulary?
- Is this benefit offered to all enrollees in this Medicare Advantage Plan?
  - Is it an optional benefit that I need to sign up for?
  - Is it a benefit that is only offered to plan members with chronic conditions? Do I meet the plan's criteria for coverage?
  - Is the benefit only available if medically necessary? Does my situation meet that standard?
- Is there a cost associated with this benefit?
  - Is there an additional premium that I must pay in order to access it?
  - Are there copays or coinsurances for these services?
  - Is this Medicare Advantage Plan's premium higher than comparable plans that do not offer this benefit?
- Are there limits on how much I can use this service—for example, a set number for rides for a transportation benefit or a dollar limit on eyeglasses?
- Are there restrictions on where and how I can access these services? For example, do I need to see in-network providers, receive a referral, or participate in a care management program?
- Are there some excluded services within this category of benefits?
- Is this the most cost-effective way for me to access these services?
- Is separate insurance or private payment for that benefit available? Does that insurance offer more benefits or is it less expensive than the premium difference?

#### OFFICE OF CHILDREN AND FAMILY SERVICES ANNOUNCES APPLICATIONS ACCEPTED FOR NEW YORK STATE YOUTH COUNCIL

The Council Will Advise State Policy Makers on Priority Issues for New York State Youth

The New York State Office of Children and Family Services (OCFS) announced that the state is accepting applications from youth who want to serve on the New York State Youth Council. The Youth Council will increase participatory democracy by involving 62 young people – one youth from each New York State county – to advise the Governor, state and local policy makers on key issues facing young people and on outreach and communication strategies.

The Youth Council will provide policy recommendations on education, youth violence, the opioid crisis, juvenile justice, environmental justice, cyberbullying and civic engagement. It will address issues that are of particular relevance to young women and girls, including sexual assault and harassment, female empowerment, economic opportunity and wage parity.

The Youth Council will be run by youth, ages 13 to 21, who will develop its organizational structure and prioritize key issues, and its members will gain hands-on experience in the democratic process. The members will serve two-year terms. Once selected, the Council will convene in Albany for orientation and training and will then be divided into regional teams to focus on specific policy issues.

Interested youth must submit an application that includes an essay and a video demonstrating their interest in one of the council's focus areas. Candidates will be selected based on their character, leadership skills, academic achievement, civic engagement and community service.

Youth may apply at <u>https://nysylc.secure-platform.com/a/solicitations/home/1</u>.
