IMPORTANT NOTICES: READ BEFORE SIGNING

1. Work conducted pursuant to a building permit must be visually inspected by the Building Department and must conform to the New York State Uniform Fire Prevention and Building Code; the Town of Cairo's Local Ordinances, and all other applicable codes, rules and regulations.
2. It is the owner's responsibility to contact the Building Department at (518) 622-9894 at least 48 hours before the owner wishes to have an inspection conducted. More than one inspection may be necessary. This is especially true for "internal work" which will be eventually be covered from a Visual inspection by addition work (i.e. electrical work later to be covered by a wall). **DO NOT PROCEED TO THE NEXT STEP OF CONSTRUCTION IF SUCH "INTERNAL WORK" HAS NOT BEEN INSPECTED.** Otherwise, work may need to be removed at the owner's or contractor's expense to conduct the interior inspections. Close coordination with the Building Department will greatly reduce this possibility.
3. OWNER HEREBY AGREES TO ALLOW THE BUILDING DEPARTMENT TO INSPECT THE SUFFICIENCY OF THE WORK BEING DONE PURSUANT TO THIS PERMIT, **PROVIDED HOWEVER, THAT SUCH INSPECTION(S) IS (ARE) LIMITED TO THE WORK BEING CONDUCTED PURSUANT TO THIS PERMIT AND ANY OTHER NON WORK-RELATED VIOLATIONS WHICH ARE READILY DISCERNIBLE FROM SUCH INSPECTION(S).**
4. New York State Law requires contractors to maintain Worker's compensation and Disability Insurance for their employees. No permit will be issued unless currently valid Work's compensation and Disability Insurance Certificates are attached to this application or are on file. If the contractor believes he/she is exempt from the requirements to provide Worker's Compensation and / or Disability Benefits, the contractor must provide WC/DB-100 Form. Note ACCORD Forms are not acceptable proof of WC insurance.
5. It is the property owner's responsibility to provide a completed plot plan that includes property lines, road ways, right-of-ways, waterways, floodplains, floodways, wetlands or any other pertinent information that would affect the issuance of building permit.
6. The work covered by this application may not be started before the issuance of a Permit, Site Plan or variance depending on the circumstances of the project. A site inspection is required for new buildings prior to the issuance of a building permit.
7. Work undertaken pursuant to this permit is conditioned upon and subject to any state and federal regulations.
8. This permit does not include any privilege of encroachment in, over, under, or upon any Town, County, State Road or right-of-way.
9. This application must be accompanied by two copies of complete plans, specifications, and all information required by State and Local municipal Codes. Upon completion of this application, the Building Department will issue a Building Permit to the applicant together with approved, duplicate set of plans and specifications. Such permit and approved plans and specifications shall be kept on the premises available for inspection throughout the progress of the work.
9. Building operations must be started within (1) year or a permit will be voided.
10. The Building Permit must be displayed so as to be visible from the street nearest to the site where the work is being conducted.
11. 911 Numbers are required to be posted on properties.

I hereby certify that I have read each of the above notices and requirements understand them and consent to each.
