Subject: Blackhead project

Dear Board,

My family has been a part of Round Top since 1906 when my great grandfather built our family home. It has been handed down for generations for all of us to enjoy. And we have!!!

Why, I ask, is the board so willing to allow such a massive project in our beautiful, quiet town? It's not for us and you all know it. What are rules and laws for if they're ignored for greed.

I ask that you reject this applicant's waivers for a "less intensive review. We all know this is wrong and will destroy our wonderful little town.

The board needs to open your eyes. Oh and some be transparency would be nice also.

Do the right thing!!!

Sincerely,
Diana Gutierrez
