**Subject:** Blackhead

Planning Board Members,

There should be no waiver given to the Blackhead development project for a less intense review. A project of this proposed scope will surely have an irrevocable effect on surrounding properties , environment and landscape . The board should act in a way that protects its residents from mass development and insure that all information about this project is reviewed thoroughly . I urge the board to reject a less intensive review of this project and allow input from the public to continue . Id like my email to be made part of the public record.

thank you  
Elaina Garone
